

# Formula 52

## A Safe and HAP-Free Solvent That Can Replace (Substitute for) d-Limonene

---

d-Limonene can cause very serious medical problems\*\* and is classified by the EPA as a Hazardous Air Pollutant (HAP)

\*\* **Oncogenesis, miscarriages, blood discrasias, liver toxicities, etc.**

**But Formula 52** doesn't cause these medical problems and it's HAP-free

---

d-Limonene is an excellent solvent in almost every application

**And Formula 52** is as good or better a solvent than d-Limonene in almost every application

---

**Formula 52** is an excellent solvent for many polymers, resins, oils and greases

**Formula 52** is available in cases of 4 x 1-gallons, in 55-gallon drums, or custom packaged

---

**Try a sample and see the results!**

**Contact CBG for a free sample & information**
