

# Formula 83™

## Clearing Solvent

**A Safe Solvent Made Specifically to Replace Xylene & Other Xylene Substitutes in Histology Applications**

**(Priced to compete with other xylene substitutes!)**

- No toxicity, unlike xylene
- Faster drying than xylene
- Faster de-paraffinization
- Shorter clearing times
- Clearer slides than with xylene
- Better immuno slides than with xylene
- No hardening of tissues as with xylene
- No badge-testing as with xylene
- No orange smell, nor oily residue, nor sticking of slides as with limonene
- About 3-times more effective than paraffinic xylene substitutes
- About 2-times more effective than limonene

**Try a sample and see the results!**

**Contact CBG for a free sample & information**
